Objective: To provide concealed carry holders, armed citizens, and off-duty LE officers with advanced training and techniques not typically covered in required CCW certification courses or semi-annual refresher training. Emphasizing mindset development and survival awareness, and pushing students beyond “qualification” mentality, this course will challenge shooters’ ability to engage threats faster, more accurately, and at greater distances in a tactically sound manner.

Instructors: Active-duty/retired law enforcement officers/trainers with extensive teaching experience in civilian and L.E. communities. We guarantee low student/instructor ratios (four-to-one maximum) to enhance safety, quality of instruction and individual attention.

Topics Covered Include:

- Firearms Safety Rules—On and off the range
- Operating from inside waistband (IWB) and from pocket holsters
- Enhancing support side handgun operation
- Increasing your speed and distance thresholds
- Turns to contact and shooting on the move
- Maximizing cover advantage—varying shooting techniques/positions
- Overcoming adverse situations—Disabled dominant hand/arm (draw, fire, reload, immediate action drills for malfunctions)

Required Equipment: A center fire semi-automatic pistol, minimum three magazines, strong side outside waistband (OWB) holster, inside waistband (IWB) and pocket holsters optional, extra magazine pouches, sturdy belt, personal eye & hearing protection

Ammunition Required: 400 rounds

Prerequisite Training: Intermediate Defensive Pistol or equivalent

Tuition: \$250.00
