

# ELECTION GAMES

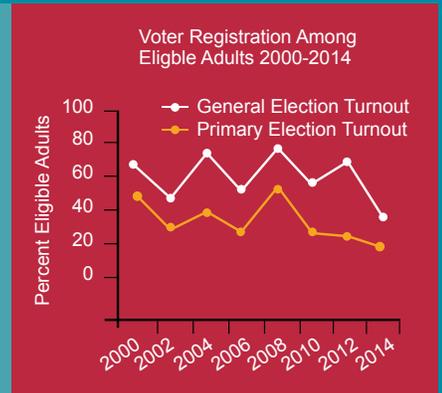

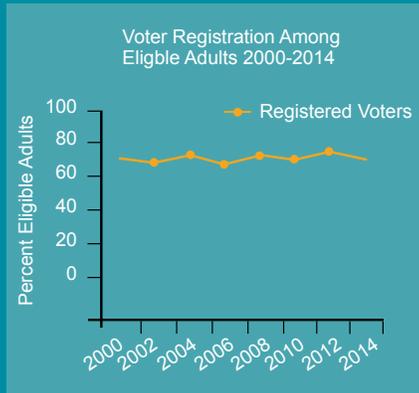

MAY THE ODDS BE EVER IN YOUR FAVOR!

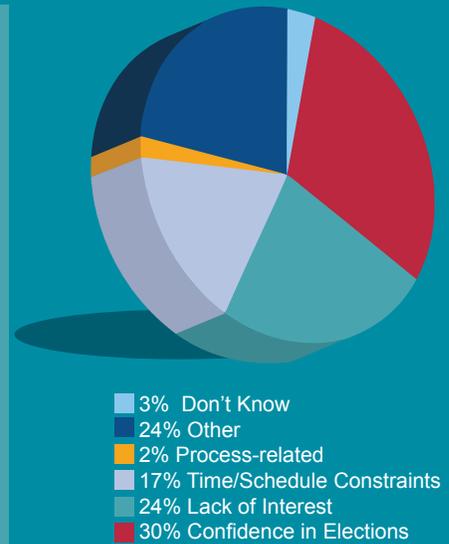

Every year CRPA has a coordinated effort with the NRA to evaluate and rate those individuals who are in the electoral process in California. 2016 will be an extremely interesting year as gun-owners are expected to show up at the polls in record numbers to combat the ever increasing pressure to whittle away at the Second Amendment rights that we hold dear.

CRPA wanted to give our members a pre-view of the political landscape in California by showcasing and saying “thank you” to those elected officials who submitted an election questionnaire in the last election cycle and who scored well in their views of protecting the Second Amendment and Hunting in California. We also want to alert our members to those elected officials that did not score well on the election questionnaire—because we still have work to do!

Take this to heart and encourage others to register to vote this election year. With around 10 million gun owners in California and approximately 33 million firearms owned in the state, if everyone went to the polls, it could change the political landscape as we know it! Stay tuned for more candidate grades being released closer to the elections this spring and thank you for your support!
