## LOW LIGHT ROOM CLEARING TACTICS

9:00 AM to 5:00 PM

### Trigger Burst Training Center

3537 Old Conejo Road  
Newbury Park, CA 91320

**Objective:** To provide instruction and practice in searching, moving, and fighting within darkened structures, as well as navigating in low-light environments and on unfamiliar structural terrain. With applications to home defense, workplace violence, active shooter, and strategic level terror scenarios, this course will combine classroom instruction and practical exercises inside of a specially designed training facility. Students will operate with hand-held flashlights, weapon mounted tactical lights and in ambient light alone, unaided by artificial white light. Instructors will emphasize proven room clearing techniques and proper gun handling skills, utilizing provided marking cartridge pistols and inert training weapons. This is a stand-alone course with no prerequisite training, however the material covered will overlap in part with our Low-Light Gunfighting Techniques, Building Search & Room Clearing, and Active Shooter Armed Response class offerings. We highly recommend this training for concealed carry permit holders, L.E. officers, and civilians preparing for defense of home and family.

**Instructors:** Retired law enforcement officers/trainers with extensive teaching experience in civilian and L.E. communities. Guaranteed low student/instructor ratios

### Topics Covered Include:

- Low light theory and effect on vision
- Flashlight applications and hand-held flashlight shooting techniques
- Weapon mounted tactical light considerations
- Room clearing techniques, low-light navigation and tactics
- Tactical decision making

**Prerequisite Training:** None. Basic pistol or equivalent and holster work recommended

**Required Equipment:** **Do not bring functioning firearms or live ammunition into the training facility.** Do bring your holster, belt, and mag pouches, hand-held flashlight with momentary end-cap switch, extra batteries, weapon-light (optional), clear eye protection, electronic hearing protection recommended, lunch/drinks. Comfortable clothing/shoes

**Tuition:** \$275.00
